

# Cartamundi

CASINO PLAYING CARDS

## Who are we?

Cartamundi is Latin for “Cards for the World”. It reflects both a mission and an ambition; to be the worldwide reference in the playing card industry.

The heritage of our company goes back for more than 250 years. Famous brands like Copag, Ace, Blackjack are part of the Cartamundi group. Today we operate [15] sales offices and 10 factories worldwide, with our head office in Belgium.

Our fully-integrated production lines guarantee the highest level of quality and security. Cartamundi offers customised playing cards and has a long history with the supply of playing cards to major casinos in Asia, Europe, US and South America.

Efficiency and quality go hand in hand. In short, Cartamundi leaves nothing to chance. We'll leave that to the casino players.

*Cartamundi head offices in Turnhout, Belgium.*

## CASINO PLAYING CARDS

### Quality and Security

Quality control is an essential ingredient in the production of casino playing cards. Our rigorous quality control starts with preproduction checks on all incoming materials.

During the printing process, we use several control systems. During cutting and packaging procedures, extra steps are taken to reassure the quality of our products. We inspect quality throughout the entire production process, using card counting units, weight checkers and vision systems.

Security is as important as Quality to Cartamundi. We have implemented security procedures and installed state-of-the-art access-control and surveillance equipment to ensure the integrity of your order:

- 100% inhouse production
- automatic printing inspection
- production checks on completeness of decks
- secure tuckbox packaging with safety seal
- secure outer carton with safety seal
- secure warehouses (in Belgium and USA).

### Plastic and Paper Cards

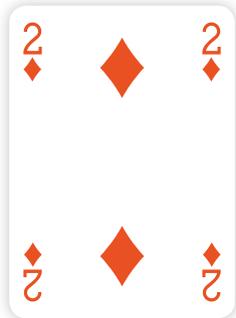

The 100% plastic cards are produced in high quality PVC and internationally recognized for its exclusive formula and special varnish which ensures smooth handling, long durability, soft touch and better performance in shuffling machines.

Cartamundi's paper cards for casinos are produced in high quality coated paper, non transparent, non-toxic and recyclable. The cards are made of unique prelinen paper, which reduces friction and increases gliding and durability. Smooth finish is available on request. Another advantage is that our cards are compatible with all available shufflers and generic intelligence shoes.

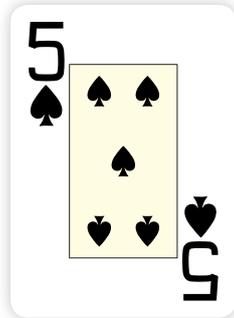

**REGULAR FACE**

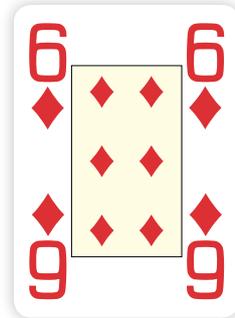

Regular 2 pips

Regular 4 pips

Jumbo 2 pips

Jumbo 4 pips

Cherry red

Casino red

Cartamundi casino cards are produced in standard market size: 63 x 88 mm - poker size. The faces are printed in pantone colors: black, blue, yellow and red. The color red of the card faces can be produced in two different options, casino red and cherry red.

Other sizes and designs can also be offered at an additional cost. Also, a custom Ace of Spades with your design on it can also be provided. Please contact us for more information.

**EXTRA SECURITY MEASURES**

If you prefer to personalize the decks more for security reasons we can offer a wide range of possibilities:

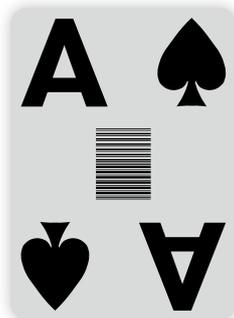

**Customized barcoded cards:** We can print a different barcode on each card in the deck. Ideal for online/live casinos.

**Invisible ink:** We can print a code, batchnumber or logo in invisible ink on every card. Invisible ink can only be seen in ultraviolet light.

**Techart faces:** These faces are compatible with the three most popular optical scanners: TechArt MAXTime®, No Peek 21® and Hole Card Reader System.

**RFID technology:** RFID is the most advanced technology for your casino. The chip inside the cards allows you to read the card immediately, without the need for well positioned cameras. Our standard RFID cards are compatible with Mifare Ultralight technology and ISO 14443 A standard.

## CUSTOM BACKS

### CUSTOMISATION

You can personalize the cardback by adding your logo to the design. The logo can be placed in oval, round or square shapes. Logos and/or text should be vectorised. We accept following files:

- PDF1.4
- .ai
- .eps
- .tiff
- .psd

We offer you a deck of 55 cards.

- 52 playing cards
- 2 jokers
- 1 guarantee card

The guarantee cards and the jokers are partially printed on the back. You can easily see which cards are not playable. On the back of the guarantee card is a number, which guarantees the tracability of your product.

### COLOUR OPTIONS

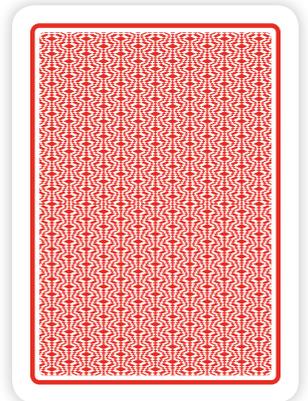

Listed are suggestions of some of the most used colors, but feel free to ask for more options.

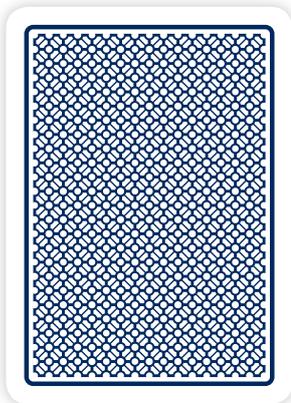

The colors in this catalogue are not contractual.

# CARD BACK OPTIONS PAPER AND PLASTIC

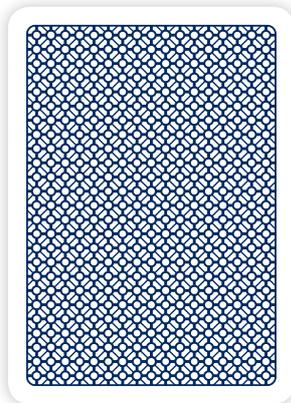

After numerous years in the casino business Cartamundi has gained experience in creating special casino designs for the card back. Our professional team of designers can create a suitable design for you, making sure that both quality and security requirements are fulfilled.
